

After-school Program Administrators, including Program Directors, Grant Managers and Site Coordinators can:

- Monitor & manage multiple after-school programs from a secure central website
- Run real-time reports by grant, program or site without having to rely on evaluators or technical staff
- Review data & reports at any time — no waiting for reports from others
- Make decisions in real-time to better meet grant & program objectives
- Provide detailed data to evaluators or funders about extent & type of program participation
- Reduce cost of data collection & evaluation

Site Coordinators can:

- Create a calendar of activities/sessions
- Import student data from school records or other existing files
- Register & enroll students in activities/sessions
- Manage student contact information & forms
- Manage staff & provider information
- Print ready-made rosters to record attendance
- Enter attendance information by activity or by day
- Use optional bar code or PDA technology for fast attendance entry

Evaluators can:

- Collect data directly versus having to rely on site staff or spreadsheets
- Print State/DOE reports directly versus spending time on compiling them
- Print ad-hoc reports that facilitate evaluation

**EZAttendance** (Pocket PC based software) lets you record attendance:

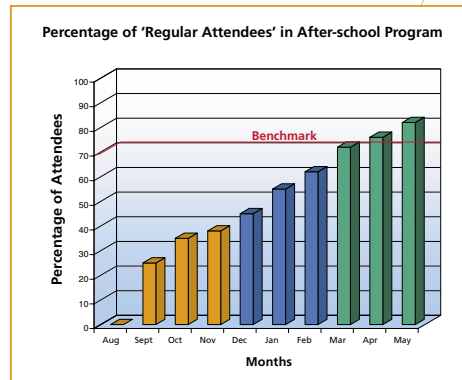

- Anywhere — in the field or on-site
- Accurately & fast
- Real-time in a paperless environment

## NEW EZEval

Performance Monitoring Software for After-school Programs.

Enables Program Directors to make data-driven decisions to improve quality of program delivery:

- Monitor status of program goals and objectives real-time.
- Enhance and sustain programs by sharing data with key stakeholders
- Measure progress towards benchmarks
- Reduce cost of evaluation and data collection

- Boys & Girls Club and YMCA
- School Districts providing Supplemental Educational Services
- Community and Faith-based After-school Programs

[www.EZReports.org](http://www.EZReports.org)  
Web-based After-school Reporting System

PROGRAM DIRECTOR

"I can't overstate how much time and effort that **EZReports** saves me. Now we enter data one time, and the way the system is setup is so simple that what used to take 4 to 5 hours to input now takes an hour ...the real time analysis really makes the difference, before it would take hours to compile and organize information from reports for analysis, now it takes just minutes."

## Why is **EZReports** web-based?

### LOWER COST...

No investment in Hardware, Software or IT Personnel/Maintenance

### ACCESS FROM ANYWHERE...

Work where you want, when you want to via secure Internet connection

### NO DATA MANAGEMENT REQUIRED...

Eliminates lost data concerns and requires no data maintenance on your part.

**EZReports** handles it all for you!

**Goal:** Help clients to effectively manage after-school programs and meet reporting requirements.

## Why should I use **EZReports**?

### **EZReports** helps users manage programs & grants

- Administer grant requirements & reporting
- Analyze programs, activities & performance real-time
- Conduct continuous program improvement
- Run reports that show participation in real-time
- Organize staff & partner schedules
- Handle billing & collection of fees
- Print over 40 reports
- Print DOE & State reports (for 21st CCLC programs)
- Develop customized reports depending on the information you need to know

### **EZReports** helps users increase productivity

- Improve communication between sites & administration
- Eliminate need for record keeping using spreadsheets & other tools
- Record attendance accurately & fast
- Eliminate time spent on collecting & compiling data for reports

SAVE TIME

### **EZReports** helps users realize more time to

- Effectively manage programs & grants
- Focus on advocacy efforts
- Increase community outreach efforts

**EZReports** takes the weight off managing data and frees time for more critical activities

### **EZReports** features:

#### EASY DATA MANAGEMENT

- Create database of students, activities/sessions, attendance, staff & providers
- Import student demographics, grades & test score data from existing school system records or other databases
- Register students/adults
